All SEES Company's products are made in Finland using ingredients of highest quality and world renown Finnish design.

SEES was born out of a desire to create a range of products that cater to all senses in everyday life. The aesthetics, clean and ecological ingredients and carefully selected fragrance combinations are the key elements of SEES.

All SEES products are non-toxic and contain no artificial ingredients. The fragrances are combinations of essential oils selected through a long and careful product development process. All fragrances carry a particular positive effect to our wellbeing - either by refreshing, strengthening or relaxing the mind.
